## **Regarding the newest Sea Alaska Bill**

April 9, 2009

Once again, my family find ourselves writing a letter for a different number bill, stating that we say NO to Kosciusko Island being part of Sea Alaska owned landed. This is my children's inheritance It is our privately owed property already. Lot TEN (10), U.S Survey 2615, situated on the East side of Fisherman's Harbor in Lot (5) and (6), Section 22, Township 68 South, Range 75 East, Copper River Meridian, Kosciusko Island, Alaska, Cape Pole. We depend upon the subsistence from hunting and fishing every year to feed ourselves and for our lodge business and for our business guests. With this proposed bills we would lose these rights. It would take away the from the value of the property due to the fact that Sea Alaska would own the property between Edna Bay and Cape Pole cutting off our supply roots. We own a hunting fishing lodge in Cape Pole. Considering the statement Sea Alaska made about a right to cross their property, would not be convened should we sell. In this economy crisis, the only economical and real help in my children's life's is this land that belongs to us. When we die, to help them carry out their lives and families to come is this land in the last frontier Alaska, where they can live off of and work hard to survive. Why is this a threat again to my children and I again.

I realize how busy the government must be at this economical crisis and state of depression but our family would ask you for a letter of response. That would touch base with us and realize that you are listening to private land owners and would make us feel valid and secure.

Attached are the previous letters with all of our concerns.

Sincerely,

Greg Richter Family

Dear Honorable representative:

My name is Carin Richter, my husband and I have three children currently enrolled in Edna Bay School on Kosciusko Island. We have our home and privately owned property nine miles across the island in Cape Pole. I am writing to everyone in hopes that this time around I will receive a response back. I have written to Honorable Don Young as well as Sea Alaska. **Please take Kosciusko Island off the table. (Both bills S.3651 and HR.3560)** After Sea Alaska found out that I had written to the Honorable Don Young, Sea Alaska, Ron Wolf has shown me that my family is not important by meeting with me and forgetting his copy of the easement he said he had written up especially for my family circumstances. I do not feel listened to, important, and do not trust the word or paperwork of Sea Alaska. I made it clear to Mr. Wolf that I said no to anything he had to offer. Please ease my family's stressful worries on how we will live here and survive. **Survive** is the key word on this Kosciusko Island. We need to travel from Cape Pole to Edna Bay in order to bring my 3 children to school on Monday through Friday. We also need to hunt and fish to eat and or survive. I have stated in my previous letter that I have private owned land, Lot 10, Block 12 Cape Pole, 1.67 acres. I paid for my land with my deceased father of my oldest child death money. He died in 1991 in the Sea Otter Sound. These are the deadly waters called the Cosmo's Pass, which are the only

boating way through to Cape Pole. If Sea Alaska Bill takes the land around my property you will be asking me to take my children by boat to school every day through these waters. This private land is my **children's entitled inheritance**. Sea Alaska should stop and look to see my family's only way of survival to live and look for their entitlement else where that will not affect my family's home, life and inheritance.

To whom it may concern:

I am writing this letter to let everyone know that my family and I went over to Kosciusko Island where we were fighting for our property in Cape Pole from Sea Alaska Bills S.3651 and HR.3560. We moved over to Edna Bay where we have several family members living there. We have lived on Kosciusko Island before for six years, from 1992-1998. We lived two years in Edna Bay and four years in Cape Pole. We enrolled our two children in school to show Sea Alaska we are not only residence of Cape Pole but will use the road system and the public school as well. We have intentions of setting up our lodge and home there. While we were there, we enrolled our two children in school, were able to work at the school, go out to our home in Cape Pole and put on a back porch, clean it up, and make a list of lumber we are purchasing there from Edna Bay.

I have included two letters that we have sent to our representatives concerning this matter.

Sincerely,

A handwritten signature in black ink that reads "Greg and Carin Richter". The signature is written in a cursive style, with "Greg" and "Carin" written in a larger, more prominent script, and "and" written in a smaller, simpler script between them. The name "Richter" is written in a similar cursive style.
